The Morningstar Rating™ for separate accounts is a quantitative assessment of past performance—both return and risk—as measured from 1 to 5 stars. The Morningstar Rating, often referred to as the “star rating,” is a familiar tool that helps investors evaluate the risk-adjusted returns of separate account composites. It also helps identify management teams that are adding value over time, compared with others in their Morningstar Category™. As always, the Morningstar Rating is intended for use as a first step in the investment evaluation process.

Managed Asset Portfolios is an independent investment adviser founded in 2000. The firm currently manages over \$350 million in a variety of equity, fixed income and balanced assets for individuals and institutions.
